At FBR, it is our policy that services are provided and admissions and referrals are made without regard to race, sex, color, national origin, ancestry, religion, creed, disability or age.

 A CARF Three-Year Accreditation has been awarded to Family Behavioral Resources for its Intensive Family-Based Services - Mental Health (Children and Adolescents), Outpatient Treatment - Mental Health (Adults), and Outpatient Treatment - Mental Health (Children and Adolescents). *BHRS program is accredited under Outpatient Treatment. Ask us about CARF today!

Family Behavioral Resources

Here, caring is everything

ADULT AUTISM SERVICES

Family Focused Therapy

**Family Behavioral Resources
is an approved provider for the
PA Adult Autism Waiver.**

Pennsylvania has developed the PA Adult Autism Waiver to support persons over the age of 21 with an Autism Spectrum Disorder. We can now support your loved ones across the lifespan.

MISSION STATEMENT

It is the mission of Family Behavioral Resources to be a leader in delivering the highest quality of recovery-oriented mental health services. Services are designed in accordance with FBR's philosophy of care, and delivered through a variety of theoretical approaches and interventions based on evidence-based practice. We are committed to supporting children, families and their surrounding community with quality care which upholds the utmost integrity. *Here, caring is everything.*

OUR PHILOSOPHY

FBR does not embrace one specific method or theory to treat our consumers. We respect unique perspectives, culture, learning styles and behavioral needs as well as the family's identification and prioritization of current need areas.

THE PA ADULT AUTISM WAIVER

The Bureau of Autism Services (BAS), a division of the Department of Public Welfare, strives to "develop, implement, and manage programs to enhance quality of life and promote independence for adults with Autism Spectrum Disorder (ASD) living in Pennsylvania."

The PA Adult Autism Waiver was developed based on recommendations from the Autism Task Force of 2004. It is the first waiver in the nation targeting adults with an ASD. The PA Adult Autism Waiver demonstrates the Bureau of Autism Services' commitment to ensuring that all persons with an ASD are afforded the opportunity to receive individualized, evidence-based services regardless of their age or ability.

There are currently 23 lines of services outlined in the PA Adult Autism Waiver. Family Behavioral Resources is now a provider of seven. *Please note that adult services may not be able in every office of FBR.*

FBR is collaborating with the Autism Education and Research Institute (AERI; www.aerionline.com) with the provision of Adult Services. AERI is an organization that provides training, consultation, support with program development, and direct support to consumers with Autism Spectrum Disorders in Pennsylvania and Ohio.

ADULT AUTISM SERVICES

AT FBR

Family Behavioral Resources has been approved to provide support through the following services. Several members of our Autism and Clinical Management Teams have completed the required trainings to make this possible.

- **Behavior Specialists** will provide specialized behavioral support for individuals who may demonstrate behavioral challenges because of limited social skills, limited communication skills, or impaired sensory systems. Behavioral Specialist Services provide specialized interventions that assist a participant to increase adaptive behaviors to replace or modify challenging behaviors that prevent or interfere with the participant's inclusion in home and family life or community life.
- **Community Inclusion** is designed to assist participants in acquiring, retaining, and improving communication, socialization, self-direction, self-help, and adaptive skills necessary to reside in the community. Community Inclusion facilitates the participant's social interaction; use of natural supports and typical community services available to all people; and participation in education and volunteer activities.
- **Family Counseling** services will provide caregiver counseling for the participant's family to develop and maintain healthy, stable relationships among all caregivers, including family members, in order to support the participant. Emphasis is placed on the acquisition of coping skills by building upon family strengths. Counseling services are intended to increase the likelihood that the participant will remain in or return to the family's home.
- **Family Training** is a service available to develop expertise in the participant's family so that caregivers can help the participant acquire, retain, or improve the individual's ability to live independently.
- **Individual Counseling** services will enable individuals to increase or maintain their ability to perform activities of daily living. The therapy is directly delivered to the individual receiving services.

- **Temporary Crisis** services will provide additional staff in the short term at a time of crisis for a participant when it has been determined that the participant's health and welfare is in jeopardy and existing supports and services cannot be provided without additional staff assistance. This service is intended for those unforeseen circumstances, which trigger a need for a time limited increase in support.
- **Job Finding and Assessment** helps persons with autism find meaningful employment or volunteer work within their communities. Assessment includes review of past job history, skills and interests to help match the individual with appropriate positions within an agency or organization. Job finding utilizes the assessment findings to help the consumer secure permanent employment for over 30 days.

THE ADULT AUTISM WAIVER PROCESS

In order for a person to be eligible for the waiver program, he/she must meet the following criteria:

1. **Live in the state of Pennsylvania (or plan to live in PA by the time of enrollment)**
2. **Have an ASD diagnosis**
3. **Be 21 years of age or older by time of enrollment**
4. **Meet Medical Assistance financial eligibility**
5. **Meet Intermediate Care Facility level of care**

Persons interested in the waiver program must contact the BAS at **866-539-7689**. Following a consultation with a BAS representative, you will receive a Priority Status Letter. It is important to note that you will not receive an application unless there is capacity to service you under the waiver. Once approved for the waiver program, the consumer will select a Supports Coordinator (SC) to facilitate the development and implementation of the Individual Support Plan (ISP) to address the goals of the consumer and his/her family. The consumer and planning team will select the service provider(s) to implement waiver services identified within the ISP. The ISP is then submitted to the BAS for service authorization. Once waiver services are authorized, the SC will contact the provider(s) to notify them that they have been selected by the consumer, review the recommendations of the ISP and assess the provider's capacity to provide services and facilitate a schedule for service initiation.
